THE SEAGULL

by Anton Chekhov

One summer at a lakeside Russian estate in the country, friends and family gather to enjoy themselves. But as everyone is caught up **passionately loving someone who loves somebody else**, a tragicomedy unfolds.

Anton Chekhov's first major play, *The Seagull*, is the acknowledged herald of modern theatre, breaking moulds, upending conventions and setting new standards.

A truly great classic play, constantly in production.

Should be on every theatre-lover's bucket list
